

UCCM700 COMPOUND MITER

UCCM700 COMPOUND MITER SAW

The UCCM700 is a precision, single head, compound miter up cut saw for straight or compound miter cuts. Equipped with a Ø700 mm blade capable of cutting large aluminum, PCV and non-ferrous metals. The hydro pneumatic blade feeding ensures an accurate and clean cut. The pneumatic controlled head tilting from 90° to 45° or intermediate angles set by manual stop is standard. The head can be rotated from 22.5° outwards to 22.5° inwards with pneumatic brake for the intermediate angles. Angles for rotation are displayed on a digital display for easy operator use and to ensure correct angular position. Electronic tilting and rotation option is available.

COMPONENTS SUPPLIED:

- Ø700 mm Blade
- Spray mist blade lubrication system
- Cutting area completely protected
- Pneumatic covers
- Chip pan
- Air gun
- Qty. 2 Vertical Clamps

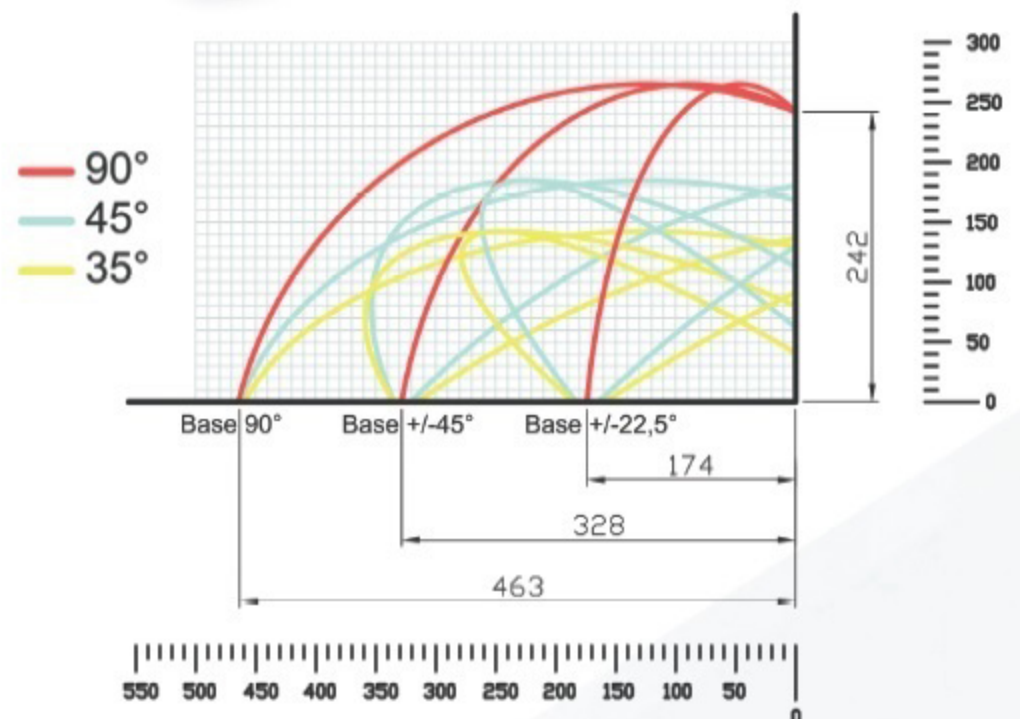

OPTIONS:

- Emulsionated oil 20L
- Horizontal pneumatic clamp
- Extra 700 mm blade

TECHNICAL SPECIFICATIONS:

- Diameter Saw Blade Ø700 mm
- 10 Hsp (7.5 kW)
- Blade speed 2800 rpm
- Head rotation from 90° to 22.5° inwards and from 90° to 22.5° outwards, digitally displayed intermediate angles with pneumatic brake
- Blade tilting from 90° to 45° inwards, intermediate angles possible
- Hydro pneumatic blade actuation (adjustable blade rising speed – quick return)
- Working Pressure: 100 psi (7 bar)
