

## GB200 HORIZONTAL V-MITER

### GB200 HORIZONTAL V-MITER

The GB200 Horizontal V-miter saw is designed for cutting aluminum and PVC glazing bead profiles. The moving cutting carriage feeds the two blades that are set at a 45° tilt. Pneumatic carriage feeding allows for a smooth accurate cut. This unit has a hand-wheel for quick height adjustment for profile waste reduction.

### TECHNICAL SPECIFICATIONS:

- Blade Size No.2 200 mm  
No.2 116 mm 4mm thickness
- Motor Size 1.5 HP
- Fixed blade angle at 45°
- Vertical pneumatic clamps
- Side support
- Two hand tie down operation
