

UCM 600 UP CUT MITER

UCM 600 UPCUT SAW

The UCM 600 is a precision single head up cut miter saw, with a 600mm carbide tipped blade for large aluminum and PVC materials. A powerful 3Kw (4Hsp) direct drive motor is installed for your demanding cutting requirements. Blade rising is controlled with a hydro-pneumatic feed cylinder riding on linear bearings for durability and accuracy. Intermediate angles are set by a pneumatic brake with a large a digital display of angles for accuracy. The table can be manually rotated from 90° to 22.5° RH and 90° to 22.5° LH. Preset stops for 90°, 45° and 135° are also included for quick set up. Two-hand anti-repeating safety device ensures safety to the operator.

COMPONENTS SUPPLIED:

- Ø600 mm blade
- No.2 vertical pneumatic clamps
- Display to show the exact angular position
- Total blade protection
- Air Filter
- Air gun
- Service keys

OPTIONS:

- Emulsionated oil 20L
- No. 2 Horizontal pneumatic clamp
- Extra 600mm Carbide blade
- Digital Angle Display
- Laser pointer
- Three-phase 4kW (5.3HP) motor
- Movable vertical profile support for greater cutting capacity
